MULTIPLAYER

Round Sequence

1. Choose a board section or one Spent color group.
2. Reveal choices and sow.
3. The final landing section selects your phase.
4. Resolve selected phases in Roll order.
5. Manage Empire; you may buy recovery sows.

No Roll Dice step. No Assign Dice step. VP pool: 8/player.

Sow From Spent

Blue	Explore
Brown	Develop
Red	Settle
Green	Produce
Purple	Ship
White/yellow	Any normal phase section

Match Bonuses

Blue in Explore	Draw +1 tile before choosing.
Brown in Develop	Reduce one cost by 1.
Red in Settle	Reduce one cost by 1.
Green in Produce	Make one extra eligible Good.
Purple in Ship	+1 VP on first Consume.
Check only the final die of each sow.	

Gain / Lose

- Gain a die: add it to its matching section.
- White and yellow gains go to Spent.
- If matching section is full, gain to Spent.
- Lose a die: remove that physical die.
- Capacity is the dice you own.

Credits

- Credits never become dice.
- Credits do not finish Develop/Settle.
- During Manage Empire, spend 2 Credits for a recovery sow.
- Recovery sows move one Spent color group.
- Recovered dice are ready next round.

Sow From Board

1. Pick up all dice from one section.
2. Choose their order.
3. Sow clockwise, one die per section.
4. Skip full sections.
5. Final landing section selects your phase.

Loop: Explore -> Develop -> Settle -> Produce -> Ship.

Use Dice

- Dice work only in their current section's phase.
- White and yellow can sit in any normal phase section.
- Develop/Settle workers stay as progress.
- Produce workers become Goods on Worlds.
- Explore/Ship workers go to Spent after use.

Builds

- Keep one Development and one World under construction.
- Workers on builds are lasting progress.
- Credits cannot be paid toward builds.
- Completed build workers move to Spent.
- Abandon one build during Manage Empire.

End Game

- VP pool exhausted.
- Any player reaches 12 tableau squares.
- Normal tile VP plus VP chips.
- Specific-color dice bonuses count owned physical dice.
- Use 8 VP chips per player for multiplayer.

Solo Setup

1. Use one mancala player setup.
2. Use a 30 VP chip pool.
3. Set Dummy Goods to 0.
4. Shuffle 5 Dummy phase cards.
5. Choose one campaign sheet.
6. Play up to 16 rounds.

Dummy Effects

Explore Claim 1 Development and 1 World.

Develop Claim 1 Development.

Settle Claim 1 World.

Produce Dummy Goods +1, max 4.

Ship Drain 2 VP per Dummy Good, minimum 2.

Tile Text

- Use normal Roll meaning first.
- Translate dice into physical mancala pieces.
- No Dice Cup, Citizenry, Wild phase, or Alien phase.
- Sections decide what work a die can do now.
- Color remains identity for tile text and scoring.

Flex Dice

- Gain Alien Technology die: yellow to Spent.
- Gain white die: white to Spent.
- When recovered, choose any normal phase entry section.
- Yellow and white work only in their current section's phase.
- Neither color has its own mancala phase.

Workers

- Temporary workers do not become owned dice.
- Extra Develop worker helps this Develop phase only.
- Place-a-die text uses a worker from the named section if available.
- Reassign moves an unused section die to another normal section.
- Do not move Spent, Goods, or progress unless text says so.

Produce / Ship

- Produce worker becomes a Good on an eligible World.
- The Good keeps the worker die color.
- Good dice are outside the mancala loop.
- Trade or Consume needs a Ship worker unless text provides one.
- Shipped Good and Ship worker move to Spent.

Dice Scoring

- Specific-color dice bonuses count physical dice owned across sections, Spent, Goods, and construction progress.
- Military dice means red dice. Alien Technology dice means yellow dice.
- There is no max-pip track; physical dice owned are capacity.

Solo Round

1. Choose and sow one source.
2. Reveal 2 Dummy phase cards.
3. Resolve all selected phases in order.
4. Resolve both Dummy effects.
5. Manage Empire normally.
